## TURN YOUR ORGANIZATION'S NEXT EVENT INTO A UNIQUE OPPORTUNITY FOR GIVING BACK!

The **Doing Good Together (DGT™) Family Service Fair** is a dynamic event where your guests and their families gather to complete simple, hands-on service projects that give back to the community in a meaningful way. Participants visit stations doing some or all of the projects which can be tailored to the specific skills and interests of your group and your organization's values.

Doing Good Together Family Service Fairs are distinguished by their family-friendly scope and research indicates that family community engagement efforts have enormous benefits.

### We know that family giving:

- Creates a hands-on way to teach kindness, compassion, tolerance, community responsibility and good citizenship – and cultivates a lifelong commitment to service and justice.
- Allows busy families to have an oasis of meaningful time together to inspire important conversations and express shared values.
- Brings joy! Serving others can be fun, especially when you're doing it with the ones you love.

"Our next generation of clients encouraged us to provide volunteer opportunities for families with children, so we partnered with Doing Good Together. The feedback on the Family Service Fair was exceptional. From a business standpoint we offered something totally unique to the clients -- and their families -- that we work with on a regular basis."

- Gregg Cummings, Financial Advisor, Nerland-Cummings Group at Morgan Stanley, Minneapolis, Minnesota

## WHO WE ARE:

Doing Good Together (DGT) is a nonprofit organization that empowers families to raise generous, compassionate, civic-minded children by offering opportunities for them to practice kindness and serve others.

We believe that investing in family service pays huge dividends: it helps solve immediate problems and creates hope by fostering the spirit of giving in a new generation. In this way, DGT accomplishes important work in our community, including feeding the hungry, caring for seniors, and enriching the lives of children in need. At the same time, DGT gives families the tools to raise children who are more likely to become tomorrow's philanthropists and activists.
